Number of visits by citizens during fall term 37

The substantial work is being done in the various schools of this town. A splendid spirit of cooperation exists between parents and teachers so that the best possible opportunities are provided for the general welfare of the children.

The Parent-Teacher Organizations are sharing a large part of the burden in the improvement of school property.

The installation of electric lights and flush toilets at the Springs has been a great success and the same thing, should be done in respect to the toilets at the Chippenhook school as soon as the work can be conveniently accomplished.

Improvements of this kind are of a permanent character and in the final analysis tend to reduce expense to the town.

A large per cent of the graduates from the different schools enter advanced institutions of learning and the interest taken by school directors and citizens for the encouragement of these young people is very commendable indeed.

May the accomplishments of the past serve to inspire all parties concerned to greater achievements in the future.

Respectfully submitted,

FREDERICK W. WALLACE

Superintendent of Schools.
